IMPORTANT: PATHOSANS ON-SITE GENERATION SYSTEM AND COVID-19

Effective cleaning and sanitizing have never been as important as they are today in light of the COVID-19 global pandemic. Here's what you need to know about the use of the PathoSans system and the solutions it produces, PathoClean® and PathoCide®.

Can I use PathoSans to kill COVID-19?

PathoCide sanitizer/disinfectant can be used to combat COVID-19. As produced by an on-site generation device, PathoCide has demonstrated effectiveness against viruses similar to 2019 novel coronavirus on hard, non-porous surfaces. Therefore, it can be used against COVID-19 when used in accordance with the directions for use against human coronavirus and other viruses on hard, non-porous surfaces.

Efficacy Data

Target Organism: Human Coronavirus

Significance of Test: EPA-recognized efficacy against various viruses

Method: AOAC Use-Dilution Method

Contact Time: 10 minutes

Free Available Chlorine Concentration: 170 PPM

Surface: Pre-cleaned, hard, non-porous

[Complete Efficacy Data](#)

COVID-19 is still an emerging virus. At present, it is unavailable for laboratory testing by any company. Be sure to study the efficacy data when evaluating disinfectants and be sure it has an EPA Registration Number or is produced by an EPA registered device.

Why can't I find PathoSans on the EPA list released on March 3, 2020?

PathoSans does not currently sell pre-made solutions. We sell an on-site generation system that produces solutions on demand in ready-to-use concentrations. Our device is EPA regulated and our EPA Establishment Number is 88161-IL-002.

How do I maximize cleaning efficacy?

- Monitor and test your PathoSans system daily. [Checklist](#)
- Be sure workers are using PathoClean® and PathoCide® as dispensed from the generator. Water, chemicals, soap or other substances should NOT be added.
- Follow a two-step process. Dirty surfaces cannot be disinfected.
 1. Clean with PathoClean and remove surface soil and biofilm.
 2. Sanitize/disinfect with PathoCide and allow the proper dwell time.
